

## Black17

Manual hydraulic basket system, suitable for 3 Vs 3 competitions.

Designed to be adaptable and manageable, the Blcak17 automatically mounts on 4 wheels to be carried by one person.

The structure is made up of a solid steel basement and of large vertical uprights, the main post have a section, mm 150x150 mm where is installed the crystal backboard supported by a special frame and positioning rods. The facility is also supplied complete with reclining baskets, concrete ballast and nets.

The detailed aesthetic research of all its components, makes the facility with an innovative and unique design together with front and lateral protections.

Technical Details	
Type of material	Steel main section, mm 150x150 mm, steel base mm 100x100, steel front mm 100x1000, support plates thickness 10 mm
Fixing system	Bolts M12
Finishing	Epoxy powder coating color RAL 3000 and black (the ability to change colors depending on the social colors)
Type of bckboards	Tempered crystal with safety film thickness mm. 12, dimensions cm. 180x105
Type of basket	Reclining basket with a release between 100 and 110 kg, like UNI EN 1270 Norm
Basket finish	Powder coating
Type of basket	Polypropylene Ø mm 3
Protection under backboard	Protezione in gomma colorata
Protection structure	Front and lateral protection with plywood panels thickness mm. 18 padded with rubber and covering with washable PVC.
Back protection of backboard	In rubber thickness mm 50 covering in washable PVC for a depth

	of cm. 120, as provided by regulation of F.I.B.A. and UNI EN 1270 Norm
Power type	Manual
Hydraulic System	Made of hydraulic cylinder motor driven by manual tank with removable rod
Anti-fall safety	Non-return valve mounted on cylinder and manual mechanical locking system
Hydraulic cylinder	Ø 60 with stem Ø 30
Front wheels	Ø 200 rotating wheels on plate
Back wheels	Roller wheels with bearings Ø 85x100
Ballast	In CA kg 370 c.a completa di rivestimento in PVC lavabile
Pins and hinges	In steel Ø mm 20
24" consolle radio	item in option

24" PANEL COMPLETE WITH CONSOLE AND CONNECTION CABLES (OPTION ARTICLES)
